### **What Parents Can Do To Help Their Children With Assessments**

Parents provide home support and encouragement needed for good student achievement.  
Using the calendar above, please plan for your children to get a good night's sleep, start the day with a good, nutritious breakfast, and come to school with a positive attitude.  
Parents might delay nighttime activities which will cause children to lose needed sleep the night before an assessment.  
Starting the morning off with positive conversation, smiles, and an encouraging hug are often enough to ensure a positive day for children.
