Contact information for each approved provider is also listed on the attached pages.

**IMPORTANT NOTE:** When selecting your three choices for a Supplemental Educational Services Provider, please **note the grade level(s)** the provider serves (be sure that matches to the grade level your child is in) and also **the minimum number of students that must enroll** with that provider in order for that provider to serve students in the Warren District. If the minimum number of students required do not select that provider, your choice will move to the next provider you choose.
